

Click-It or Mommy Gets a Ticket

Memorial Day weekend traditionally marks the unofficial beginning of summer. Did you know that more fatalities occur from Memorial Day to Labor Day than any other period of the year? It's called the 100 Deadliest Days of Summer. Let's make it the 100 Safest Days of Summer by always buckling up and driving alert.

State and local law enforcement agencies and highway safety officials across the state of Utah and the nation care about your safety, so they deliver a message during the month of May: Click It or Ticket. The goal is to get more drivers and passengers to obey the law by buckling up every time they ride in a vehicle.

Encourage everyone to buckle up and let's make this summer a Zero Fatalities summer because it is a goal we can all live with.
