

FIND THE RIGHT FIT: TIPS FOR CAR SEAT SAFETY

60% OF CAR SEATS ARE INSTALLED INCORRECTLY

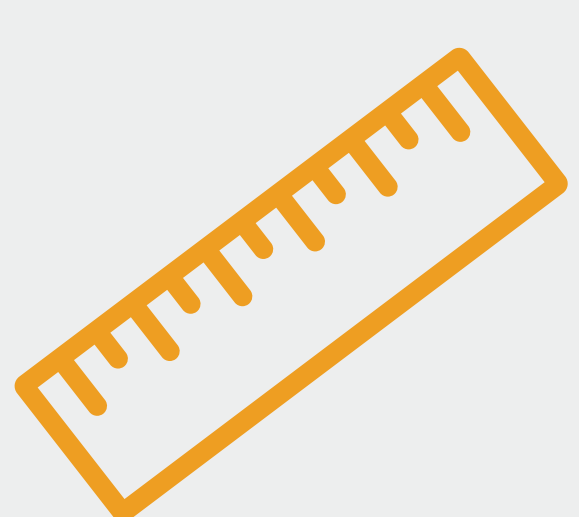

Follow these tips for safer travel with children:

Choose a car seat that **fits your child and your vehicle**

Install the seat rear-facing as long as possible, often until after age 2 and 30 pounds

Once installed, **the seat should not move** at the belt path more than 1 inch from side to side or back to front

When buckling your child, **keep the chest clip at armpit level**; the **harness straps should be tight enough** that you cannot pinch the webbing together vertically

Use the car seat until your child reaches the **top height or weight allowed** by the manufacturer
